Subject: Update from Cisco - BP Whiting

Francisco is at the JIC / on-scene and attended this morning's briefing (fyi: blackberry service there is spotty).

USCG hopes that EPA will be able to sign off on a joint media update. They're working on a draft that USCG wants to release no later than noon today (Central).

I've advised Cisco that if EPA and USCB both agree to the language, we can do a joint media release. So I'll share a draft with you as soon as I see it.
